BERND HOLLIN &  
ALEXANDER RADOSKE

Masters of Style celebrates architecture that evokes emotion through material and detail. In this edition, Hollin + Radoske Architects bring this vision to life. Based in Frankfurt and founded in 1997 by Bernd Hollin and Alexander Radoske, their studio creates high-end spatial narratives across hospitality, retail, and residential projects. With meticulous material choices and thoughtful design, they craft atmospheric, emotionally resonant environments where client collaboration ensures each space is as meaningful as it is memorable.
